Geometry EOC revision planner

Confirmed school exam date: _____
My priority skill: _____

Day	Focus	Action	Done
1	Diagnostic and priority	Attempt a fresh form. Record your weakest category and first incorrect steps.	___
2	Logic and theorems	Review angles, triangles, quadrilaterals and circle relationships. Explain why each theorem applies.	___
3	Congruence and similarity	Practise transformations, correspondence, constructions and scale factors.	___
4	Coordinates and measurement	Work on circles, areas, exposed surfaces, volumes and right-triangle models.	___
5	Repair your weakest skill	Study one explanation, solve a new version unaided and revisit an earlier topic.	___
6	Mixed rehearsal and correction	Complete a fresh fixed form. Check response entry, category results and recurring mistakes.	___
7	Recall, logistics and rest	Use a light recall set. Confirm school time, location and authorized materials. Protect sleep.	___

My three error checks

1. _____
2. _____
3. _____

Daily cycle: recall → independent questions → explanation of the first error → a fresh follow-up. Practice accuracy is local feedback, not an official scale-score prediction.
